To Whom It May Concern

This is to certify that Choki Traditional Art School established by Ms. Choki Handicrafts is an exemplary initiative from the private sector to promote the traditional art and culture of the country. Such initiatives not only support the Royal Government's objectives to preserve the cultural heritage but also support the less fortunate to be gainfully employed. Besides, it will not only meet the increasing demand for highly skilled traditional art and craft personnel within the country but will also cater to the outside world now with the increased interest and awareness in Buddhism.

Any form of assistance to help sustain this school will go a long way in fulfilling the national objectives of preserving our unique art and culture. Further, it will help to strengthen our identity, independence, and sovereignty.

I would therefore strongly recommend support and assistance of any kind for the development of the school.

I wish the Principal, Staff and the Students of the school every success in achieving their goals and aspirations.

Tashi Delek!

HRH Prince Namgyal Wangchuck
